ELECTRICAL SOLUTIONS

Founded in 1995, Mullane Electrical is an Australian – owned and operated company that has built a legacy of trust and excellence in Newcastle, Lake Macquarie, the Hunter Valley, and the Central Coast.

Introduction

With a forward-looking approach, we pride ourselves on delivering “Peace of Mind, Right on Time” through our quality maintenance electrical services.

Supported by our strategic locations in Newcastle and the Central Coast, we ensure every project, regardless of scale is completed with the utmost precision, on schedule and within budget.

Who we are

Prophase have provided Peace of Mind, Right on Time to the Newcastle and Hunter since 1925 via Mullane's plumbing, drainage and roofing companies.

In 1995 we gave birth to Mullane Electrical now Prophase Electrical Solutions and over the past 30 years we have built up our knowledge, expertise, and experience to the point where we are now believing that it is best to give our Electrical team an identity of their own.

Our dedicated team of 19, is led by our General Manager and Operations Manager, ensuring smooth and efficient service. Our Admin keeps everything running seamlessly behind the scenes, while our Service Manager and Project Manager work diligently to meet your specific needs. And of course, our skilled Electricians provide the expert technical expertise you can rely on. We're all committed to delivering exceptional results.

Under our 100% Quality Service Guarantee, we pledge to:

- Arrive at your property at a mutually agreed upon time.
- Remain accessible for services 24 hours a day, 7 days a week, throughout the year.
- Offer a lifetime guarantee on our workmanship.

Choose Prophase for a partnership defined by reliability, trust, and unwavering quality in every task we undertake.

Our Support

Prophase Electrical Solutions offers premier 24/7 support across the Hunter region and Central Coast, featuring a team of expert technicians adept in electrical services, covering emergency, reactive, and scheduled maintenance.

Our expert team delivers complete programmed and reactive electrical works. We leverage an advanced asset management system to proactively forecast maintenance needs, helping your organisation optimize the performance and extend the longevity of your assets.

We know that effective scheduling is key to avoiding costly outages. Our commitment is to tailor a solution that meets your specific needs, delivering superior results across all sectors.

Our Commitments

Environment

Prophase is deeply committed to environmental stewardship, recognising the critical importance of protecting our natural assets.

Our approach is rooted in:

- Proactively minimising environmental impact through diligent prevention measures.
- Adhering to all environmental legal and regulatory frameworks.
- Collaborating with clients to embed environmental considerations into planning, design, and project execution.
- Enhancing our environmental performance by setting, reviewing, and striving for ambitious objectives and targets, guided by Prophase Electrical Solution's Environmental Management System.
- Pursuing a goal of zero harm to continuously improve our "environmental incident rate" against hours worked.

Health & Safety

We value our team as our most significant asset and regard Workplace Health and Safety (WHS) as a core element of our corporate ethos. Our commitment to WHS encompasses:

- Ensuring a safe and healthy environment to prevent occupational injuries and illnesses for both our employees and others impacted by our operations.
- Adhering to all workplace health, safety, and rehabilitation legal and regulatory requirements.
- Collaboratively incorporating WHS considerations into project planning, design, and management with our clients.
- Constantly advancing our WHS performance through the setting and evaluation of specific objectives and targets.
- Implementing Prophase's WHS management system and striving for a continuous reduction in the "serious injury rate" relative to working hours.

Our Commitments

Quality

Our team is dedicated to exceeding client expectations by delivering defect-free, competitively priced, and timely services and products while adhering to statutory and regulatory requirements.

Our commitment to quality is upheld through:

- Maintaining, reviewing, and continually improving our Quality Management System in line with ISO9001 standards.
- Allocating adequate resources to implement and sustain our Quality Management System.
- Employing qualified, skilled, and experienced staff, and providing ongoing education and training to enhance their capabilities.
- Promptly identifying, reporting, investigating, and resolving any non-conformances.
- Monitoring and evaluating the quality performance of suppliers and subcontractors.
- Fostering open communication among clients, employees, subcontractors, and suppliers to drive continuous improvement initiatives.

Our Commitments

Community

The Mullane Foundation was set up to formalise our giving to the community and to inspire us to contribute to those less fortunate in a structured, effective way. Every year part of our profits goes directly back into communities that need it most.

Our mission is to provide hands on support to locals in communities without basic infrastructure to build and maintain facilities that provide clean water, effective sewage disposal, roofing or electricity. We do this by funding projects in which our people are happy to donate their labour so that the giving of all parties is amplified for the benefit of the recipient and the participants.

Mullane also supports many existing causes and community organisations including:

- Cancer Council
- Westpac Rescue Helicopter
- Royal Institute for Deaf and Blind Children
- WorldSkills Australia
- The Sista Code

Experience & Certifications

Experience you can Trust.

Prophase proudly announces our accreditations for Level 2 Electrical and Solar as well as certification for Best Practices in ISO9001 Quality Management Systems, ISO45001 Safety Management Systems, and ISO14001 Environmental Management Systems. This achievement underscores our unwavering dedication to delivering quality products and services, prioritising environmental stewardship, ensuring the safety of all stakeholders, and upholding business ethics and risk management principles.

Throughout our extensive history, we've collaborated with a diverse range of clients, enabling us to broaden our expertise and better meet the unique needs of our clientele.
